

Pitstone Allotment Association Polytunnels

Rules

Approval

Plot holders must consult and seek the approval of the PAA site manager or the allotment association committee before erecting a polytunnel taller than 4ft on the allotment and agree to follow the rules herein.

Sizing

Any polytunnel falling under these rules should have a foot print no larger than 50% of the plot

The polytunnel should be located at least 0.5m in from the edge of the plot (to allow easy mowing of paths)

The polytunnel can be sited in any direction

Type

The polytunnel must be a proprietary polytunnel from a recognised supplier (i.e. not home made).

Maintenance

Must be kept in a good good condition (tears and damage repaired).

Removal

At the end of a plot holders tenancy the plot holders is responsible for removal of the polytunnel unless with agreement of the incoming tenant the polytunnel remains on the plot.
